If you choose to mail your payment, please mail it early. Also, be sure to affix the correct amount of postage on the envelope—including extra postage for oversized and/or heavy envelopes. We cannot accept mail that has postage due. **Mailed payments must have a U.S. Postal Service postmark dated on or before the due date to avoid a late interest.**

The U.S. Postal Service postmark is the only date recognized for date of mailing. We do not accept the date written on your check or a business metered date of proof of the mailing date. Before mailing your payment, check with your local post office to make sure the postmark date will be prior to the interest and/or penalty date. If you want to be sure that your payment has a postmark before the interest and/or penalty date, have the post office postmark the envelope in your presence.
